MY STORY

I enjoy turning complex problems into simple, beautiful and intuitive Interface designs. As a designer and developer, I understand the perfect user interface should look good and work even better. Alongside my clients, I uncover problems and solve them. In short, I create bolder online experiences. I am able to work effectively in a team or on my Own. I have demonstrated an ability to lead small Teams and mentor other workers. I pride myself on being able to use my knowledge and Initiative to deliver high quality results to tight deadlines. I enjoy a challenge and look for the opportunity to expand and develop my skill set.
